<b>Office Action Summary</b>	<b>Application No.</b> 10/001,420	<b>Applicant(s)</b> RUSSELL ET AL.	
	<b>Examiner</b> Andrew Joseph Rudy	<b>Art Unit</b> 3687	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 16, 2008 has been entered. Claims 1, 4, 6-11, 19-22 and 24-26 are pending.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 4, 6-11, 19-22 and 24-26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1, lines 10-13, the additional subject matter added to claim 1 does not appear to have support for the specification in juxtaposition with the drawings, as originally filed.

Claim 19, lines 5, 6, "sending a command to start a client program, receiving commands . . . and transmitting data to a remote computer" subject matter does not appear to have support for the specification in juxtaposition with the drawings, as originally filed.

Claim 21, lines 5-7, "sending a command to start a client program, receiving commands . . . and transmitting data to a remote computer" subject matter does not appear to have support for the specification in juxtaposition with the drawings, as originally filed.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1, 4, 6-11 and 24-26 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 14-15, "a command" from line 14 is not clear in juxtaposition with "a command" from line 15.

***Claim Rejections - 35 USC § 103***

6. Claim 1, 4, 6-11, 19-22 and 24-26, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Mindrum, US 7,222,120 in view of Abene et al, US 6,669,975 and Official Notice.

Mindrum discloses, e.g. cols. 1-7, conducting an on-line transaction comprising providing at least on computer server, e.g. Fig. 2, for use on the world wide web, where users may be provided a unique identification in creating an account, e.g. cols. 5-7, lines 59-45, and charging a fee for the services. Mindrum does not disclose a pet calculator. It is noted that Mindrum may be used with pets, e.g. cols. 3-4, lines 66-13.

Abene discloses obtaining information regarding pet-related services from a plurality of sources and providing results and feedback to a user.

Applicant's specification, e.g. page 13, discloses a pet calculator that uses common knowledge database information.

Mindrum apparently does not disclose from its provisional application where member/user accounts are charged for use of a web site and where sending/receiving a command from a remote computer and transmitting data to a remote computer. Official notice is taken that charging a member/user account for use of a web site and sending/receiving a command from a remote computer and transmitting data to a remote computer using a protected password has been common knowledge in the electronic world wide web database art.

To have provided pet-related services from a plurality of sources and providing results and feedback to a user for Mindrum would have been obvious in view of Abene. To have provided a pet calculator for Mindrum, as modified by Abene, would have been obvious to one of ordinary skill in the art in view of this common knowledge.

Further, to have provided charging a member/user account for use of a web site and send/receive a command from a remote computer and transmitting data to a remote computer using a protected password form Mindrum, as modified by Abene, would have been obvious to one of ordinary skill in the art in view of Official Notice.
